

**Whether you just fancy a few baked treats to get you through that breakfast meeting, a working lunch for the team or a spread to impress a visiting client, please think Taste.**

All of our food is freshly prepared on site every day. Our bread is delivered fresh each morning and we make and sell our sandwiches the same day only. The salad and vegetables we use are delivered daily, the vegetables are then chopped, seasoned and cooked by ourselves, as is the free-range chicken used in our sandwiches, salads and wraps.

So you can rest assured that your order hasn't been mass produced and bought in, or sat in the fridge for days!
